EXPERIENCE

Senior Frontend Software Engineer, Recharge - Remote May 2023 - Aug 2026

- Led frontend development of the merchant analytics platform — dashboards and drill-down reports surfacing business metrics previously unavailable to 20,000+ merchants.
- Primary frontend engineer on the custom analytics reports product through two architectural generations: canned reports with pre-selected metrics and dimensions, and fully customizable reports. Collaborated closely with backend and data engineers.

Senior Full-Stack Software Engineer, Stay.AI - Remote Nov 2022 - May 2023

- Led the architectural design and development of the customer portal rebuild, utilizing technologies such as React, Zustand, Material UI, Node, Express, Redis, PostgreSQL, Twilio, and other relevant tools.

Frontend Software Engineer, Recharge - Remote Feb 2021 - Oct 2022

- Develop and maintain e-commerce subscription management software using Vue, TypeScript, Nuxt, Vuetify, Cypress, Jinja, Flask, SQL, and more.

Software Developer, Covetrus - Portland, ME / Remote Apr 2019 - Feb 2021

- Iterate on a digital prescription management platform serving 100,000+ veterinary customers using the Scaled Agile Framework, utilizing technologies like React, TypeScript, Apollo, GraphQL, Express, Node.js, MongoDB, MySQL, Java, Spring Boot, Kafka, and more.
- Joined as a software developer intern in April 2019 and was offered a full-time role after six weeks.

EDUCATION

2012 B.Sc Jazz Studies, SUNY New Paltz

- Conducted a live performance for a senior project. Picked the musicians, led the rehearsals and promotion, and performed an hour-long Jazz set in front of a live audience.
